## **Evaluation That Makes Sense**

## What to Look For

When scoring the criteria, make sure you use a scale that can be easily applied to key questions. Take note of language used: brand tone of voice and align to your goals. Make it easy to repeat and compare across every response.

Criteria	Weighting	Questions	Scoring
Great Service	30%	How quickly and helpfully do they respond when people need support?  Do they communicate in plain English?  Are they proactive about preventing problems?	<ul> <li>CSAT and NPS scores</li> <li>Clear SLAs and response times</li> <li>Level of communication used</li> <li>Ticketing system and account reviews</li> </ul>
Strategic Partnership	25%	Do they help you plan and make good technology decisions?  Can they help you get more value from your existing software?  Do they understand charity-specific needs like grant applications and volunteer management?	<ul> <li>Onboarding process</li> <li>IT roadmaps and account management</li> <li>Third-party application expertise</li> <li>Technology partnerships and accreditations</li> <li>Evidence of sector knowledge and expertise</li> </ul>
Transparency and Value	25%	Are their costs clear and predictable?  Do they offer flexible contract terms?  Can they show how their support will benefit your mission?	<ul> <li>Prices clearly laid out</li> <li>Transparent terms and conditions</li> <li>List of any extras or additions</li> </ul>
Cultural Fit	20%	Do they understand the charity sector?  Are they patient and inclusive with people at different technical levels?  Do their values align with yours?	<ul> <li>Recent case studies</li> <li>Relevant references</li> <li>Relatable background and company information</li> <li>Evidence of ESG or CSR activities and programmes</li> </ul>
